Inhaltsangabe	The course refers to the complementary educational activities. The course starts with a broad introductory overview of the event industry and its impacts. It then places emphasis on the administrative processes involved in the management of events; its aim is to provide students with the necessary skills to organise and manage events. The course analyses also the way human and technical resources are employed to achieve the determined outcome of an event. On completion of this course, students should be able to: • Understand the key features of planning an event;

	Explore and evaluate the business and
	management factors to be considered in the
	successful organisation of an event;
	Identify the various sectors of the events industry
	and explore their specific implications from a
	managerial perspective;
	Apply project management skills in a practical
	sense with the use of several event management
	and project management software packages.
