Kursbeschreibung

Titel der Lehrveranstaltung	Strategien und Medien der nonverbalen Kommunikation - LAB GS
Code der Lehrveranstaltung	80933
Zusätzlicher Titel der Lehrveranstaltung	
Wissenschaftlich-disziplinärer Bereich	PSIC-02/A
Sprache	Italienisch
Studiengang	Spezialisierungslehrgang für Inklusion mit Fokus auf Kinder und Schüler:innen mit Behinderungen im Kindergarten und der Grundschule sowie in der Mittel- und Oberschule - Abteilung in ital. Sprache
Andere Studiengänge (gem. Lehrveranstaltung)	
Dozenten/Dozentinnen	Dott. Samantha Righi, Samantha.Righi@unibz.it https://www.unibz.it/en/faculties/education/academic-staff/person/52425
Wissensch. Mitarbeiter/Mitarbeiterin	
Semester	Erstes Semester
Studienjahr/e	2
KP	1
Vorlesungsstunden	0
Laboratoriumsstunden	20
Stunden für individuelles Studium	5
Vorgesehene Sprechzeiten	0
Inhaltsangabe	The laboratory aims to provide tools and strategies for designing augmentative and alternative communication (AAC) systems for students with disabilities.

Themen der Lehrveranstaltung	The workshop aims to provide knowledge and practical tools to support incoming and outgoing communication in situations involving Complex Communication Needs. Introduction to nonverbal communication: - Student needs - Definition, elements, and characteristics; Nonverbal languages - Body language - Facial expressions - Eye contact and proxemics - Voice and paralinguistics - Iconic-visual language, auditory language, ... - Multimodal communication Nonverbal communication - AAC (Augmentative and Alternative Communication) possibilities, symbols and more - Tools and materials useful for promoting and supporting communication Educational applications - Production of materials and tools to support and facilitate autonomy and relationships in individuals with CCN (Complex Communication Needs) - Techniques and approaches to promoting communication.
Stichwörter	Nonverbal communication; Language; Alternative forms of communication; AAC
Empfohlene Voraussetzungen	
Propädeutische Lehrveranstaltungen	
Unterrichtsform	During the workshop, in addition to theoretical introductions and presentations of tools, techniques, and materials, much of the time will be dedicated to discussion and experimentation. To encourage participation and understanding of the presentations, videos, images, and slides will be used. Ample time will be dedicated to reflection, discussion, and group

	activities. A plenary session will be essential for the feedback on the activities completed and the resulting reflections.
Anwesenheitspflicht	In accordance with the regulation
Spezifische Bildungsziele und erwartete Lernergebnisse	Knowledge and Understanding - Know how to use tools to analyze the specific communication needs of students with disabilities - Be familiar with various materials and tools for Augmentative and Alternative Communication (AAC) Applied Knowledge and Understanding - Be able to select, adapt, and use AAC tools and techniques in real or simulated school settings - Design personalized communication interventions Independent Judgment, Communication Skills, Learning Ability - Reflect critically on the effectiveness of the tools used
Spezifisches Bildungsziel und erwartete Lernergebnisse (zusätzliche Informationen)	
Art der Prüfung	The exam requires the individual construction of a tool or part of one from those presented during the workshop (e.g., communication passport, communication strip or table, change notebook, etc.). At the same time, the student will be required to complete a very short summary sheet, in which they will indicate the fundamental elements of which the tool is composed and the situation for which it was designed, along with its instructions for use.
Bewertungskriterien	Assessment involves a single final grade. The individual activity, presented by each student, will be evaluated based on: - Structure and logical coherence - Relevance, in relation to the situation for which the tool was created - Clarity of presentation, in relation to the completion of the form.
Pflichtliteratur	Lecture notes, slides, and suggested materials made available by the instructor during the laboratory sessions.
