Stunden für individuelles Studium	-
Vorgesehene Sprechzeiten	
Inhaltsangabe	The course deals with the Italian accounting environment and the accounting standards used to prepare financial statements. The course covers financial reporting and non-financial reporting, with a focus on sustainability issues. Topics are addressed in a comparative manner with International Financial Reporting Standards (IFRS) to provide students with a comprehensive understanding of accounting practices.

Themen der Lehrveranstaltung	<p>The lessons of the course are organised in two main subject areas:</p> <ol style="list-style-type: none"> 1. Financial Statements - The lectures in the Financial Statements part cover the key topics of the course, framing them in their fundamental aspects: <ol style="list-style-type: none"> a. general principles of financial statements; b. formal aspects of financial statements; c. substantive aspects of financial statements; d. non-financial and sustainability reporting. 2. Accounting - The lessons in the Accounting part take up and develop the content of the main financial statement topics in application. They also address new topics that are complementary to those of the main lessons: <ol style="list-style-type: none"> a. equity financing; b. allocation of the result for the year; c. compensation of employees.
