|  |  |
|--|--|
|  | <p>appropriately analyse a specific economic-productive context (ONLY M2-INNOVATION ECONOMICS);</p> <p>ILO 2.i</p> <p>Ability to classify, analyse specific innovations and assess their potential (ONLY M2-INNOVATION ECONOMICS);</p> <p>ILO 2.m</p> <p>Ability to propose and implement strategic and operational courses of action to foster the development of innovations by a company.</p> <p>ILO 2.n</p> <p>Ability to assess the potential of an innovation within existing companies compared to the creation of a new company (e.g., intrapreneurship, open innovation, etc.) (ONLY M2-INNOVATION ECONOMICS).</p> <p><b>ILO 3: AUTONOMY OF JUDGEMENT</b></p> <p>ILO 3.a</p> <p>Acquire the ability to analyse complex entrepreneurial problems, such as the elaboration and evaluation of an entrepreneurial project (business plan) or the development of a new product;</p> <p>ILO 3.b</p> <p>Acquire the ability to make predictions, such as analysing the future consequences of entrepreneurial, managerial and operational choice;</p> <p>ILO 3.c</p> <p>Autonomy of judgement is developed in the training activities carried out for the preparation of the thesis, as well as in the exercises that accompany the lectures and that involve group discussions and the comparison of individual analyses carried out by students in preparation for the lecture.</p> <p><b>ILO 4: COMMUNICATION SKILLS</b></p> <p>ILO 4.a</p> <p>Acquire the ability to describe and communicate in an intercultural context, in a clear and precise manner, problematic situations typical of the management of a new enterprise and the development of innovation, such as, for example, the conditions for the validation of a problem or solution, the prospects and risks associated with a business model or an innovation project. The development of communication competences assumes heterogeneous situations such as, for example, the presence of</p> |
|--|--|

|   |   |
|---|---|
|   | <p>internal stakeholders (e.g. colleagues, managers, owners), or external stakeholders (e.g. potential investors, suppliers and other business partners) and the ability to sustain an adversarial process; ILO 4.b</p> <p>The achievement of these objectives is assessed in the course of the training activities already mentioned, as well as in the discussion of the final thesis.</p> <p><b>ILO 5: LEARNING SKILLS</b></p> <p>ILO 5.a</p> <p>Acquire the ability to study independently, to prepare summaries; ILO 5.b</p> <p>Acquire the ability to identify thematic connections and to establish relationships between different cases and contexts of analysis; ILO 5.c</p> <p>Acquire the ability to frame a new problem systematically and to generate appropriate taxonomie; ILO 5.d</p> <p>Acquire the ability to develop general models from the phenomena studied.</p> |
| <b>Spezifisches Bildungsziel und erwartete Lernergebnisse (zusätzliche Informationen)</b> |   |
| <b>Art der Prüfung</b>  | <p>The assessment takes into consideration the combined acquisition of the learning outcome reached by the students in the two modules.</p> <p>Over the course, students are expected to participate to class discussion based on topic assigned in advance. They are also given written final exam, project works, and oral presentations</p>  |
| <b>Bewertungskriterien</b>  | <p>The final grade will be the arithmetic average of the grade in M1 and in M2. A minimum grade of 15 in both modules is required</p> <p>For M1 and M2: For attending students: individual written final exam test (at most 70%); course work (at least 30%). For not attending students: final exam 100%</p> <p>The course work will focus on ILO 4, while the final exam will assess the following skills (included in ILO 1, 2, 3, 4, 5):</p>  |

|   |   |
|---|---|
|   | <p>Ability to understand the impact of firms' incentives in designing firms' competitive strategy (pricing, entry)</p> <p>Ability to understand incentives for firms to collaborate and to innovate in environments characterized by complementarities and network externalities</p> <p>Ability to understand both the private incentives and the welfare consequences of firms' strategies</p> <p>Ability to assess, within a managerial perspective, costs and benefits of innovative activity within a firm, both in the short and in the medium-long run</p> <p>Ability to identify, from the viewpoint of a manager, the innovation protection tools that best fit the different contexts, assessing their costs and benefits</p> <p>Ability to assess, within a policy-maker perspective, effectiveness and efficiency of the various industrial policy instruments for innovation.</p> <p>Ability to assess the role of institutions (private sector vs public sector) in promoting and supporting innovation</p> <p>Students are expected both to be able to solve formal economic models, and to discuss their implications.</p> |
