<b>Inhaltsangabe</b>	This course explores the dynamic relationship between politics and economics, equipping students with tools to analyse how political forces shape economic outcomes and vice versa. More specifically: Analyses the interaction between political institutions and economic policy, including the effects of electoral systems, governance structures, and political incentives; Examines the role of media and social media in influencing public opinion, political accountability,

	<p>and policy-making, with attention to polarization and misinformation; Explores the political economy of conflict and violence, focusing on the causes and consequences of civil unrest, and political instability; Encourages critical thinking and debate through case studies, and analysis of contemporary political-economic challenges.</p>
<b>Themen der Lehrveranstaltung</b>	<p>Institutions and economics  Institutions in non democratic societies  Institutional reforms  The effects of international politics  Civil wars  Vote coercion and vote buying  Organised crime and politics  Media, politics, and economics</p>
<b>Stichwörter</b>	Institutions, elections, civil wars, media
