

# Syllabus

## *Course Description*

<b>Course Title</b>	General Pedagogy and Didactics 2 - In-depth Analysis of Selected Topics
<b>Course Code</b>	12407
<b>Course Title Additional</b>	
<b>Scientific-Disciplinary Sector</b>	NN
<b>Language</b>	German
<b>Degree Course</b>	5 year master degree in Primary Education - German section
<b>Other Degree Courses (Loaned)</b>	
<b>Lecturers</b>	<p>Prof. Dr. Katja Julia Kansteiner,  Katja.Kansteiner@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/50296">https://www.unibz.it/en/faculties/education/academic-staff/person/50296</a></p> <p>Prof. Dr. Dr. Mag. MSc Annemarie Profanter,  Annemarie.Profanter@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/3663">https://www.unibz.it/en/faculties/education/academic-staff/person/3663</a></p> <p>Prof. Dr. Barbara Gross,  Barbara.Gross@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/35122">https://www.unibz.it/en/faculties/education/academic-staff/person/35122</a></p> <p>Dr. phil. Claudia Bettina Scochi,  ClaudiaBettina.Scochi@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/37116">https://www.unibz.it/en/faculties/education/academic-staff/person/37116</a></p> <p>Dr. phil. Susanne Schumacher,  Susanne.Schumacher@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/38281">https://www.unibz.it/en/faculties/education/academic-staff/person/38281</a></p> <p>dr. Francesca Schir,  Francesca.Schir2@unibz.it  <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/38524">https://www.unibz.it/en/faculties/education/academic-staff/person/38524</a></p>

	Dr. Stephanie Mian, Stephanie.Mian@unibz.it <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/38575">https://www.unibz.it/en/faculties/education/academic-staff/person/38575</a>
<b>Teaching Assistant</b>	
<b>Semester</b>	First semester
<b>Course Year/s</b>	2.
<b>CP</b>	10
<b>Teaching Hours</b>	60
<b>Lab Hours</b>	40
<b>Individual Study Hours</b>	150
<b>Planned Office Hours</b>	30
<b>Contents Summary</b>	<p>The overall module belongs to the area of basic subjects and to the academic fields of general education, social pedagogy and general didactics.</p> <p>The overall module aims to impart basic pedagogical knowledge as well as the acquisition of specific professional competences.</p>
<b>Course Topics</b>	<p>The module deepens and expands upon the foundational concepts introduced in Module 1, particularly in General Pedagogy and General Didactics. It takes into account the developmental stages of children and the institutional contexts of early childhood education and primary schooling. The intended learning outcomes for students include the ability to:</p> <ul style="list-style-type: none"> <li>- Understand, differentiate, and apply key pedagogical and didactic terminology;</li> <li>- Engage with theories and analyses of pedagogical-didactic practices in educational institutions characterized by heterogeneity, and relate these to current educational challenges;</li> <li>- Shift between theoretical perspectives and critically perceive, diagnose, and explain pedagogical issues, linking them to diverse, evidence-based intervention strategies;</li> <li>- Recognize the specific characteristics of educational processes in early childhood and the influence of varying socialization contexts, and reflect on their significance for kindergartens and primary schools;</li> <li>- Understand, reflect upon, and apply theories, methods, principles, and quality criteria of didactic practice in early childhood</li> </ul>

	<p>and primary education;</p> <ul style="list-style-type: none"> <li>- Demonstrate advanced knowledge in the planning, implementation, reflection, analysis, and evaluation of didactic projects, educational games, and learning processes in heterogeneous groups, and apply this knowledge in a reasoned manner;</li> <li>- Understand and implement concepts that promote participatory and inclusive learning environments.</li> </ul>
<b>Keywords</b>	Advanced Concepts in Educational Science, Educational Processes in Early Childhood and primary education, Heterogeneity, Didactics / Teaching Methodology, Learning Environments in Kindergarten and Primary School
<b>Recommended Prerequisites</b>	Modul General Pedagogy and General Didactic 1
<b>Propaedeutic Courses</b>	/
<b>Teaching Format</b>	Lecture and Seminar
<b>Mandatory Attendance</b>	In accordance with the regulation
<b>Specific Educational Objectives and Learning Outcomes</b>	<p>Students should achieve the following specific educational objectives: They should</p> <ul style="list-style-type: none"> <li>- know, differentiate and use pedagogical and didactic terminology;</li> <li>- be familiar with theories and analyses of pedagogical and didactic action in educational institutions characterised by heterogeneity and be able to relate them to current problems;</li> <li>- change theoretical perspectives and perceive, diagnose and explain pedagogical topics and problems in a differentiated way and relate them to different practical intervention strategies;</li> <li>- know the special features of educational processes in childhood as well as divergent socialisation context conditions and be able to reflect on their significance for kindergarten and primary school;</li> <li>- know, reflect on and apply theories, methods, principles and quality criteria of didactic action in kindergarten and primary school;</li> <li>- have in-depth knowledge of the planning, design, reflection, analysis and evaluation of didactic projects, games and educational processes in heterogeneous groups and be able to apply this knowledge in a well-founded manner;</li> <li>- know and be able to apply concepts of learning environments that promote participation and inclusion.</li> </ul>

	<p>Expected learning outcomes and competences:</p> <p>Knowledge and understanding</p> <ul style="list-style-type: none"> <li>- Students have differentiated scientific and pedagogical basic knowledge and are proficient in the technologies of subject-specific knowledge acquisition.</li> <li>- Students can interpret and systematise pedagogically relevant situations and problem areas and classify them in scientific systems.</li> </ul> <p>Applying knowledge and understanding</p> <ul style="list-style-type: none"> <li>- Students are able to analyse and understand pedagogical and didactic actions using concrete examples and anchor them in theoretical contexts.</li> </ul> <p>Judgement</p> <ul style="list-style-type: none"> <li>- Students are able to judge the relationship between pedagogical theory and pedagogical practice in their respective social contexts.</li> <li>- They can make judgements based on different bodies of knowledge and justify their judgements scientifically.</li> </ul> <p>Communication</p> <ul style="list-style-type: none"> <li>- When discussing case studies, students are able to use pedagogical-didactic terminology appropriately and switch between theoretical perspectives.</li> </ul> <p>Learning strategies</p> <ul style="list-style-type: none"> <li>- Students are aware that educational science and pedagogical competence has to do with their own biography as well as with acquired knowledge and experience.</li> <li>- They have developed strategies for constant reflection on aspects of theory-led practice and practice-orientated theory.</li> </ul>
<b>Specific Educational Objectives and Learning Outcomes (additional info.)</b>	
<b>Assessment</b>	<p>Examination for the Two Lectures</p> <p>The written exam includes both open-ended and closed questions, structured along the following dimensions: Knowledge, Transfer and Reasoned Judgment.</p> <p>A maximum of 30 points is allocated to the General Pedagogy</p>

	<p>section and 30 points to the General Didactics section. The exam performance contributes 60% to the final grade (30% per lecture).</p> <p>Assessment Components – Laboratory Sessions</p> <p>General Didactics Laboratory: Development of a product, including a written preparatory paper and/or a presentation.</p> <p>General Pedagogy Laboratory: Group presentations, evaluated based on the use of appropriate academic terminology, presentation design, reference to relevant academic literature, and active participation in the laboratory sessions.</p> <p>Each laboratory component contributes 20% to the final grade.</p>
<b>Evaluation Criteria</b>	<p>Assignment of a single final assessment for the overall module on the basis of both partial examinations (general pedagogy; general didactics). The assessment is based on the syllabus and the compulsory literature, the topics covered, the expected learning outcomes and the specific educational objectives.</p> <p>Criteria for the assessment are:</p> <p>Appropriate answers, reference to literature/underlying academic terminology, ability to critically analyse and reflect, independent and reasoned judgement.</p> <p>For a positive completion of the module, both partial examinations must be completed with at least a positive result in accordance with the examination regulations.</p> <p>In the event of a negative assessment of the overall module, any positively assessed module parts will be credited the next time you take the module examination. Please note, however, that a negative assessment will also be included in the count of examination attempts in this case. According to the examination regulations, three attempts without passing will result in a block for three examination dates. (see also Article 6, Paragraph 4 of the current examination regulations)</p>

<b>CP</b>	3
<b>Responsible Lecturer</b>	
<b>Teaching Hours</b>	30
<b>Lab Hours</b>	0
<b>Individual Study Hours</b>	45
<b>Planned Office Hours</b>	9
<b>Contents Summary</b>	The lecture offers a deepening and expansion of the knowledge prepared in Module 1 about pedagogy as a science and its specific references to age groups and pedagogical fields of action, in particular kindergarten and primary school. Among other things, this involves processes of socialisation and educational institutions as well as a fundamental understanding of upbringing and education in different linguistic, cultural, political and social contexts. Theories of pedagogical action and pedagogical professionalism are of particular importance.
<b>Course Topics</b>	<ul style="list-style-type: none"> <li>- Fundamental Concepts of Pedagogy and Educational Science</li> <li>- Major Theoretical Approaches and Conceptual Frameworks in Educational Science</li> <li>- Influential Educational Thinkers and Pedagogues</li> <li>- Theories of Pedagogical Action and Professionalism in Education</li> <li>- The Educational Profession in Public Discourse and Perception</li> <li>- Pedagogical Antinomies (Contradictions and Tensions in Educational Practice)</li> <li>- Education and Personality Development: Processes of Personalization and Individuation</li> <li>- Education and Upbringing – Individual and Society: Theories of</li> </ul>

	<p>Socialization and School-Based Socialization</p> <ul style="list-style-type: none"> <li>- Stress and Strain in Educational Contexts</li> <li>- Education and Upbringing in Diverse Linguistic, Cultural, and Societal Contexts</li> </ul>
<b>Teaching Format</b>	Lecture with media support; short reflection exercises, also in partner work; in-depth short group work; literature study.
<b>Required Readings</b>	<p>Gudjons, H., &amp; Traub, S. (2020). <i>Pädagogisches Grundwissen: Überblick – Kompendium – Studienbuch</i>. Bad Heilbrunn: Utb. (Chapters covering the teaching topics).</p> <p>Rothland, M. (2016) (Hrsg.). <i>Beruf Lehrer/Lehrerin: Ein Studienbuch</i>. Münster: Waxmann. (Chapters covering the teaching topics).</p> <p>Seel, N. <b>Teaching Hours</b>	0
<b>Lab Hours</b>	20 Gruppe 1: Prof. Dr. Dr. Mag. MSc Annemarie Profanter Gruppe 2, 3 und 4: dr. Francesca Schir
<b>Individual Study Hours</b>	30
<b>Planned Office Hours</b>	6
<b>Contents Summary</b>	<p>The laboratory deepens and concretises the topics dealt with in the lecture in three respects:</p> <p>Differentiation and building complexity: working on the multifaceted nature and ambivalent structure of processes of socialisation and pedagogical action; prerequisites for professionalism; organisational conditions of pedagogical action.</p> <p>Diversity, difference and systematics: dealing with heterogeneity in educational institutions - with a focus on childhood from the age of 5 onwards</p> <p>Forming judgements: Justifying one's own judgement by reflexively weighing up arguments and positions in relation to thematic focuses; knowledge of the performance, but also limitations of this judgement.</p>
<b>Course Topics</b>	<ul style="list-style-type: none"> <li>- Consolidation and concretisation of the topics covered in the lecture - reflection on own experiences, transfer, action orientation, research-based learning;</li> <li>- Research and systematisation exercises on thematic focal points;</li> <li>- Focus on the theory-practice relationship using South Tyrolean documents (e.g. framework guidelines; journals; websites);</li> <li>- Exercises on judgement formation and justification in the context of changing theoretical perspectives;</li> <li>- Thematic specialisations: Basic Concepts of Pedagogy, Directions in Educational Science, Influential Educators, Professionalization and Public Perception, Pedagogical Antinomies, Stress and Strain, Education and Personality, Theories of Socialization, Socialization in School</li> </ul>
<b>Teaching Format</b>	Joint discussions, group work, case studies, and text presentations form the core of the learning activities. Independent preparation and follow-up work are expected from students.
<b>Required Readings</b>	<ul style="list-style-type: none"> <li>• Gudjons, H., &amp; Traub, S. (2020). <i>Pädagogisches Grundwissen: Überblick –Kompendium –Studienbuch</i> (13.,</li> </ul>

<b>Contents Summary</b>	<p>The laboratory serves to deepen the topics developed in the lecture; it aims to deal with fundamental and general topics of educational processes in a research- and action-oriented manner, which are then to be concretised with regard to the special situation of kindergarten and primary school under the conditions of diversity. Special attention will be paid to planning processes in everyday pedagogical and didactic life.</p>
<b>Course Topics</b>	<p>Planning and designing diversity-oriented learning environments in kindergartens and primary schools</p>

	Testing, reflecting on and further developing the quality of materials and tasks Developing adaptive professional development opportunities for educators
<b>Teaching Format</b>	Reading and collaborative discussion, group work, and portfolio work including the creation of video material. Students are expected to engage in independent preparation and follow-up work in accordance with the allocated credit points
<b>Required Readings</b>	The required reading includes the literature covered in the lectures as well as supplementary texts related to the portfolio assignments (see portfolio tasks).
<b>Supplementary Readings</b>
