Propädeutische Lehrveranstaltungen	
Unterrichtsform	Frontal lectures, exercises, discussion of cases.
Anwesenheitspflicht	<p>Suggested, but not required.</p> <p>Non-attending students should contact the lecturer at the beginning of the course in order to organise their study.</p>
Spezifische Bildungsziele und erwartete Lernergebnisse	<p>The course belongs to the type "attività formative affini o integrative – formazione affine".</p> <p>The course provides a general overview of scientific contents related to microeconomics and to industrial economics. In addition, it allows students to acquire professional managerial skills, as well as competences that may be used as policymakers.</p> <p>Students are expected to familiarize with the basic concepts of business economics, and to apply them. In particular, the focus will lie on the following objectives:</p> <ol style="list-style-type: none"> 1) Familiarize students with the basic tools of micro and macroeconomics 2) Familiarize students with the basic tools of industrial organization. 3) Help students develop a sound analytical framework guiding their future professional decisions in a company. 4) Illustrate how internet and the digital economy are changing the industrial structure and the economics of business.

	<p>Knowledge and understanding:</p> <ul style="list-style-type: none"> • D1.1 - Possess basic knowledge of mathematical analysis, algebra, numerical calculation and optimisation methods which support computer science and advanced economics. • D1.2 - Possess solid knowledge of statistics and probability theory that support computer science and in-depth economic subjects. • D1.16 - Knowledge of the basic concepts of economics and their influence on economic decisions. <p>Applying knowledge and understanding:</p> <ul style="list-style-type: none"> • D2.11 - Ability to analyse large amounts of data on economic facts and processes. • D2.12 - Ability to apply one's knowledge of economic conditions and of microeconomic decision-making behaviour. <p>Making judgments</p> <ul style="list-style-type: none"> • D3.1 - Ability to collect and interpret data useful for forming independent judgments on IT and economic aspects of information systems. <p>Communication skills</p> <ul style="list-style-type: none"> • D4.3 - Ability to negotiate with people with different professional experiences the definition and requirements of corporate information systems. <p>Learning skills</p> <ul style="list-style-type: none"> • D5.1 - Learning ability to undertake further studies with a high degree of autonomy.
Spezifisches Bildungsziel und erwartete Lernergebnisse (zusätzliche Informationen)	
Art der Prüfung	<p>The exam is written.</p> <p>The evaluation will be based on a (non-mandatory) midterm exam, and a final exam.</p> <p>Exams may consist of three parts, which test three different skills:</p> <ul style="list-style-type: none"> • Review questions, where students are expected to show they have learnt and understood the covered material • Exercises, where students are expected to apply their knowledge within a formal framework • Open questions, where students are expected to apply their

	knowledge in a non-structured framework
Bewertungskriterien	In both the midterm and the final exam, each of the three skills will approximately carry equal weight. For students who take it, the midterm exam will count approximately 50% of the final grade. For students who do not take it, the full grade will be based on the final exam.
