Contents Summary	The course examines advanced topics in Italian accounting standards, with a focus on the latest regulatory changes. It equips students with the skills to prepare and analyze financial statements under OIC standards.
Course Topics	After a number of changes occurred in the last years both, at national as well as at european level, concerning the financial reporting practices, the Italian Accounting Standard setter (Organismo Italiano di Contabilità - OIC) started a widespread review of the accounting standards.

	Therefore, the aim of the current course is to provide students with: a) updates on the current projects undertaken by the OIC; b) a comprehensive knowledge and understanding of some relevant accounting standards; c) bridge theory and practice to make students able to “use” accounting rules to real-practical cases.
