Ressumé di contegnus	This laboratory will focus on how to develop young and very young learners' oral skills in English through expanding the participants' integrated professional language teaching knowledge and competences. Furthermore, participants will develop their knowledge of a repertoire of practical classroom activities and teaching ideas reflecting current methodological practice, connecting these to the theoretical knowledge acquired throughout the lectures (24.1)
Argomenc dl curs	The course topics and related experiential tasks will include: – creation, selection, adaptation, and creation of activities suitable for young learners (YL) and very young learners (VYL); – development of teacher and learner interactive oral skills: teacher talk, classroom language, modified input, corrective feedback; – micro-planning and simulations of teaching activities focusing on the two main oral skills (listening, speaking) in line with provincial and national guidelines for primary and pre-primary teaching, e.g. storytelling, songs, games, and more.
Modalité de ensegnament	Integrated, experiential, collaborative approach: individual, pair, and group work with ongoing instructor mediation and feedback; project work; planning and carrying out interactive microteaching simulations.
