

Syllabus

Kursbeschreibung

Titel der Lehrveranstaltung	Finanzmathematik
Code der Lehrveranstaltung	27331
Zusätzlicher Titel der Lehrveranstaltung	
Wissenschaftlich-disziplinärer Bereich	STAT-04/A
Sprache	Englisch
Studiengang	Bachelor in Wirtschaftswissenschaften und Betriebsführung
Andere Studiengänge (gem. Lehrveranstaltung)	
Dozenten/Dozentinnen	dr. Silvia Bressan, Silvia.Bressan@unibz.it https://www.unibz.it/en/faculties/economics-management/academic-staff/person/37763
Wissensch. Mitarbeiter/Mitarbeiterin	
Semester	Erstes Semester
Studienjahr/e	2
KP	6
Vorlesungsstunden	36
Laboratoriumsstunden	18
Stunden für individuelles Studium	-
Vorgesehene Sprechzeiten	18
Inhaltsangabe	<p>The course deals with: Mathematics of time value of money and interest rates: Students will explore the relationship between time and the value of money.</p> <p>Mathematics of bond investments: Students will learn the main features and mathematical foundations of government and</p>

	<p>corporate bonds.</p> <p>Mathematics of risk and return: Students will be introduced to the risk/reward trade- off of financial assets, focusing on equity instruments.</p>
Themen der Lehrveranstaltung	<p>Mathematics of time value of money: Students will explore the relationship between time and the value of money. Key concepts include interest rates, discounting and compounding of cash flows, present value and future value of single sums, annuities, perpetuities, and debt retirement methods.</p> <p>Mathematics of bond investments: Students will learn the main features and the mathematical foundations of government and corporate bonds. Key concepts include bond evaluation and pricing, determination of yield rates and rates of return, and the measurement of interest rate risk. Hints to green bonds.</p> <p>Mathematics of risk and return: Students will be introduced to the risk/reward trade-off of financial assets, focusing on equity instruments. Students will learn tools to analyse both historical asset returns and expected returns.</p>
Stichwörter	<p>Interest rate, discounting/compounding of cash flows, annuities, debt retirement, corporate bonds, government bonds, bond pricing, bond yield to maturity, forward rates, term structure of interest rates, bond duration, bond convexity, corporate equity, holding period return, log-return, expected return, risk of corporate equity, volatility, tail risk.</p>
Empfohlene Voraussetzungen	<p>No prerequisites, however it is advisable that the students have basic prior knowledge in statistics as well as in calculus and linear algebra.</p>
Propädeutische Lehrveranstaltungen	
Unterrichtsform	<p>Frontal lectures and frontal exercise sessions. Exercises will be solved using a standard calculator. Few examples will also be presented using Excel/R. Knowledge on the use of Excel/R is not a prerequisite and is not covered by the final assessment.</p>
Anwesenheitspflicht	<p>Attendance not compulsory but strongly recommended</p>
Spezifische Bildungsziele	<p>ILO (Intended Learning Outcomes)</p>

<p>und erwartete Lernergebnisse</p>	<p>ILO 1 Knowledge and understanding</p> <p>ILO 1.1 Knowledge of the method of analysis for estimating present values and discount factors to estimate the cost of capital and valuation of bonds and shares</p> <p>ILO 1. 2 Knowledge of medium and long-term financial forecasting methodologies and sensitivity analysis with simulation under uncertainty to manage risks in corporate and international finance</p> <p>ILO 1.3 knowledge and understanding of the international financial environment, multinational risk defence techniques and competitive strategies adopted by global banks</p> <p>ILO 2 Ability to apply knowledge and understanding</p> <p>ILO 2.1 be able to apply the main theories of capital, foreign exchange and commodity markets to actual observed data, including in the international context</p> <p>ILO 2.2 be able to use techniques for evaluating the performance of financial investments and understand the mechanisms of price formation of risky financial assets and spot and forward interest rates</p> <p>ILO 2.3 knowing how to work with basic and intermediate level mathematical tools, and basic level statistics, to study the behaviour of economic actors, from a theoretical and empirical point of view</p> <p>ILO3 Making judgements</p> <p>ILO 3.1 choose the most appropriate quantitative and qualitative methods of analysis</p> <p>ILO 3.2 finding the necessary information in databases, legal sources and scientific literature</p> <p>ILO 3.3 use logical reasoning to combine information and analytical methods, also using modern software packages, to arrive at a solution.B38</p> <p>ILO 4 Learning skills</p> <p>ILO 4.1 retrieve information from databases, scientific literature, laws and regulations as required in professional life</p> <p>ILO 4.2 analyse, critically process and integrate data, information and future experience, also using advanced software</p>
<p>Spezifisches Bildungsziel</p>	

und erwartete Lernergebnisse (zusätzliche Informationen)	
Art der Prüfung	Written exam for attending and non-attending students with theoretical review questions and numerical exercises (ILOs 1-4).
Bewertungskriterien	Final mark from exam assessment (100%). Relevant for exam assessment: Theoretical knowledge of the concepts covered in class and ability to solve financial problems.
Pfichtliteratur	<p>Lecture slides and notes with exercises provided by the lecturer. The content of the materials is based on the following textbooks:</p> <ul style="list-style-type: none"> - Jonathan Berk, and P. DeMarzo, "Corporate Finance", 4th edition, Pearson, 2017. ISBN: 9780134083278; - Zvi Bodie, Z., A. Kane, and A. Marcus, "Investments", 13th Edition, 2024. ISBN: 9781264412662; - Raymond Brooks, "Financial Management: Core Concepts", 4th Edition, Pearson, 2019. ISBN: 9780134730417; - Frank J. Fabozzi, "Capital Markets: Institutions, Instruments, and Risk Management", 5th Edition 2015, ISBN: 978-0-262-02948-3; - Gary C. Guthrie, and L. D. Lemon, "Mathematics of Interest Rates and Finance", New International Edition, Pearson, 2014. ISBN: 9780130461827.
