Ressumè di contegnus	The course offers a broad overview of the avant-garde movements that characterized the revolution in the arts in the first decades of the 20th century.
Argomenc dl curs	'What should I do?'—this may be the question of art and design students attending a lecture on 'contemporary art.' But 'contemporary' does not only refer to today's artistic practice. It denotes an epoch after modern and postmodern art, an art in the age of globalization, dealing with the crises of our civilization: pollution, war, fascism, exploitation, inequality. Contemporary art

	is defined by specific practices that position the artistic author, define the audience, and reflect the institutional framing. Art history (Surrealism, abstract expressionism, pop art, conceptual art) will enter the discourse insofar as it helped establish practices that are still valid in contemporary art. Special attention will be paid to political movements, feminist art practices, performance, and forms of narration. You will probably not know what to do as an artist after that. But you will understand the field in which you can research.
Paroles clef	Modernism/postmodernism, Fluxus, Pop Art, Conceptual Art, Site-specificity, Institutional Critique, Body Art, Performance, Feminism in Art, Postcolonial Theory.
