Ressumè di contegnus	The course introduces to the tradition of philosophy as a metaphysical knowledge of principles. Based on the elucidation of the scope of philosophical interrogation, it lays out the differences between philosophical insight, scientific modeling, artistic creation and common sense. In the process, links between the different perspectives of philosophy, politics and economics are drawn.

Sort de ejam	A. Modality "attending":

	Assessment 1: Open-book written final exam with short questions on two levels: one designed to check knowledge and understanding in terms of indicated objectives, the other designed to verify the capacity for applying this knowledge and this understanding in reasoning (ILOs 1.1–1.3, 2.1–2.5, 3.1, 4.1, 5.1). Assessment 2: Take home essay on one of a series of suggested or on a freely chosen topic. This exercise requires students to exhibit the capacity for unfolding philosophical thinking in a more extended form, displaying the acquired ability to distinguish between factual-ontic description and merely formal-logical reasoning, on the one hand, and ontological interrogation on the other (ILOs 2.6, 4.2, 5.2). B. Modality “non-attending”: Closed-book written final exam on the entire material covered during the course (= assessment 3) (ILOs 1–3, 4.1, 5).
Criters de valutazione	Assessment 1 counts for 70% of the final mark. Assessment 2 counts for the remaining 30%. Assessment 3 carries 100% of the mark. Relevant for assessments 1 and 3: clarity, coherence and exhaustiveness of answers; capacity for arguing straight to the point, without introducing elements that are alien to what is being asked. Relevant for assessment 2: the capacity for posing a genuinely philosophical question and for unfolding autonomous philosophical reasoning; proven effort of elaborating a clear and formally correct text.
