Sintesi contenuti	The course provides students with tools for an advanced understanding and development of skills in the field of representation. Specific focus is on the narrative character of image composition.
Argomenti dell'insegnamento	This course focusses on drawing as an essential technique to conceptualize, communicate and express an artistic idea. It builds on a previous one-year-course where students were introduced to the basics of drawing: idea, proportion, composition, perspective. This course provides students with techniques to develop their

	drawing skills and to reach a deeper understanding of the act of drawing. It aims to sharpen observational skills and strengthen individual artistic vocabularies. One of the key features of this module is the focus on narrative connections: Through the use of a variety of drawing techniques, students will be encouraged to visualize single observations within a larger context. The course is open to students of all academic years. Didactic materials take into account the trilingual context of the faculty.
