<b>Sintesi contenuti</b>	The course provides students with tools for an advanced understanding and development of skills in the field of representation. Specific focus is on the narrative character of image composition.
<b>Argomenti dell'insegnamento</b>	This course focusses on drawing as an essential technique to conceptualize, communicate and express an artistic idea. It builds on a previous one-year-course where students were introduced to the basics of drawing: idea, proportion, composition, perspective. It aims to sharpen observational skills and strengthen individual artistic vocabularies.</p> <p>One of the key features of this module is the focus on narrative connections: Through the use of a variety of drawing techniques, students will be encouraged to visualize single observations within a larger context.</p> <p>The course is open to students of all academic years. Didactic materials take into account the trilingual context of the faculty.</p>
