Course Description

Course Title	Specialized English
Course Code	42113
Course Title Additional	
Scientific-Disciplinary Sector	ANGL-01/C
Language	English
Degree Course	Bachelor in Industrial and Mechanical Engineering
Other Degree Courses (Loaned)	
Lecturers	Dr. Jemma F. Prior, Jemma.Prior@unibz.it https://www.unibz.it/en/faculties/engineering/academic-staff/person/564
Teaching Assistant	
Semester	Second semester
Course Year/s	3
CP	3
Teaching Hours	25
Lab Hours	15
Individual Study Hours	35
Planned Office Hours	9
Contents Summary	An upper-intermediate English-language course based on the B2/B2+ level of the CEFR. This specifically designed course aims to develop some of the language of engineering through use of general and specific texts, both written and spoken. The course aims to facilitate comprehension and participation in the other courses offered by the Faculty of Engineering with emphasis on improving both receptive and productive skills.
Course Topics	Topics covered include a general revision of basic grammatical structures with subsequent consolidation through use of practical applications.

	• Writing academic emails: formal language/making polite requests/format & language of formal emails • Writing academic reports: formal language/discourse markers/structure & organisation • Making academic presentations on a discipline-specific topic • Discipline-specific vocabulary: word formation & collocations • Paragraph writing: topic sentences, discourse markers & other organisational features • Fluency activities for speaking • Grammar incl. gerunds/infinitives; conditionals; passive • Syntax incl. indirect questions; position of adverbs/adverbials
Keywords	Specialised English vocabulary, writing, speaking
Recommended Prerequisites	Certified English knowledge at minimum B1 level (Common European Framework of Reference for Languages - CEFR).

Teaching Format	Teaching format is based on the seminar format which envisages teacher and student co-operation and participation in the classroom through individual, pair and group work. Any student who has specific learning needs that they feel may have an impact on their ability to benefit fully from this course will be offered individual support on request.
Mandatory Attendance	Not compulsory but recommended.
Specific Educational Objectives and Learning Outcomes	An upper-intermediate English-language course based on the B2/B2+ level of the CEFR. This specifically designed course aims to develop some of the language of engineering through use of general and specific texts, both written and spoken. The course aims to facilitate comprehension and participation in the other courses offered by the Faculty of Engineering with emphasis on improving both receptive and productive skills. Specific educational objectives include the following: • to improve written skills through practice of writing emails, paragraphs, reports and other subject-specific texts; • to improve spoken interaction and production through the practice and production of presentations of engineering-related topics; • to improve receptive skills through the exposure to and analysis of various types of written and spoken discourse;

	• to develop grammatical and lexical range and accuracy so that communication has a degree of fluency. 1. Knowledge and understanding: Knowledge of grammatical structures and subject-specific academic and professional lexis at the B2/B2+ level, understanding of authentic (general and subject-specific) short spoken and written texts including a limited number of specialised texts and other general texts, as well as different registers and styles. 2. Applying knowledge and understanding: Producing emails, paragraphs and descriptions about specific engineering-related but also general topics providing opinions and accounting for the views presented. Presenting clear descriptions of engineering projects, developing points and formulating opinions in short written and oral texts. 3. Making judgments: Integrating knowledge and understanding acquired in the course with knowledge and understanding from other courses to achieve academic and professional purposes especially within the fields of engineering. 4. Communication skills: Communicating (in both speaking and writing) with a degree of fluency. Ability to adapt language style to show awareness of both the intended purposes and audience. 5. Learning skills: Ability to pursue autonomous learning both during the course and subsequently based on the input provided in the classes and lectures and the feedback received.
