<b>Obiettivi formativi specifici e risultati di apprendimento attesi</b>	<p>The courses in the module "Comparative linguistics, acquisition and didactics of L2" have three main focuses:</p> <ol style="list-style-type: none"> <li>1) The course and laboratory on the introduction to DaZ/DaF and on the didactics of L2 are based on the legal requirements (framework guidelines for German and Italian kindergarten, for German and Italian primary school in South Tyrol). They enable students to plan, develop, implement and reflect on language support measures for L2 (DaZ/DaF) in kindergarten and school on the basis of scientific findings on L2 acquisition and multilingualism.</li> <li>2) The course Comparative Grammar of German and Italian</li> </ol>

provides an insight into the most important structural similarities and differences between the Italian and German languages, also with regard to the didactics of German.

3) The laboratory Ladin language and culture, integrated language didactics provides an insight into the Ladin language and culture as well as into the multilingual Ladin school system including integrated language didactics.

Expected learning outcomes and competences:

Knowledge and understanding

Students have a solid knowledge of the topics covered in the courses;

they can independently and competently deepen new scientific resources and analyse and evaluate them with regard to their relevance and applicability in their professional field.

Applying knowledge and understanding

Students can analyse and reflect on the knowledge they have acquired and apply it to the teaching unit in kindergarten and to teaching practice at school;

They are able to adapt and implement the multilingualism curriculum to the requirements of the group and class situation in kindergarten and school;

they can link the different contents of the module and use them successfully in their everyday work.

Judgement

Students are able to analyse the language policy strategies adopted in South Tyrol in the area of L2 acquisition and L2 didactics and to make a reflected judgement - also with regard to other European border regions;

thanks to the knowledge and skills they have acquired, they are able to initiate practical exploration projects and action research projects in the classroom, critically question them and use them to optimise their teaching.

Communication

Students are able to communicate strategic decisions in the subject area appropriately to teachers and pupils;

	<p>they are able to express themselves in an appropriate and scientifically sound manner on the subject areas covered in the module and answer related questions.</p> <p>Learning strategies Students are able to analyse and critically question their own learning strategies with regard to L2 acquisition; they have a professional approach to the available scientific resources and can combine new scientific findings with their knowledge and thus generate new knowledge.</p>
<b>Obiettivi formativi specifici e risultati di apprendimento attesi (ulteriori info.)</b>	
<b>Modalità di esame</b>	<p>Final overall assessment of the module performance on the basis of the following certificates:</p> <p>1. Lectures (6 ECTS in total) Introduction to DaZ/DaF and Comparative Grammar of German and Italian: Written examination (Klausur) on the contents of the two lectures (150 minutes). Introduction to DaZ/DaF: three examination tasks: Profile analysis 8 points, language-sensitive teaching 12 points, question on compulsory literature 10 points. Comparative grammar exam: Multiple choice test.</p> <p>2. Laboratory (2 ECTS) Didactics of German DAF+DAZ and language education in the learning fields: Planning, elaboration and writing of a learning scenario for kindergarten or primary school, final reflection.</p> <p>3. Laboratory (2 ECTS) Ladin language and culture, integrated language didactics: Term paper: development of a didactic unit based on the principles of integrated language didactics (deadline to be announced on OLE at the beginning of the semester).</p>
<b>Criteria di valutazione</b>	<p>Criteria for the assessment of the written examination and the written work in the laboratories:</p> <ul style="list-style-type: none"> <li>- Completeness</li> <li>- Deepening and reflection</li> <li>- Clarity of argumentation</li> <li>- Correctness of content and language</li> </ul> <p>The assessments of the written examination and the assignments</p>

	<p>are included in the overall assessment.</p> <p>In accordance with the examination regulations of the faculty, the assessment of each individual course belonging to the module must also be positive for a positive overall assessment of the module performance.</p> <p>In the event of a negative assessment of the overall module, the entire module examination must be repeated. Please note that according to the examination regulations, three attempts without passing will result in a block for three examination dates. (See also article 6, paragraph 4 of the current examination regulations).</p>
