

# Syllabus

## *Descrizione corso*

<b>Titolo insegnamento</b>	Frutticoltura
<b>Codice insegnamento</b>	40199
<b>Titolo aggiuntivo</b>	
<b>Settore Scientifico-Disciplinare</b>	AGRI-03/A
<b>Lingua</b>	Inglese
<b>Corso di Studio</b>	Corso di laurea in Scienze agrarie, degli alimenti e dell'ambiente montano
<b>Altri Corsi di Studio (mutuati)</b>	
<b>Docenti</b>	prof. Carlo Andreotti, Carlo.Andreotti@unibz.it <a href="https://www.unibz.it/en/faculties/agricultural-environmental-food-sciences/academic-staff/person/27175">https://www.unibz.it/en/faculties/agricultural-environmental-food-sciences/academic-staff/person/27175</a>
<b>Assistente</b>	
<b>Semestre</b>	Secondo semestre
<b>Anno/i di corso</b>	3
<b>CFU</b>	6
<b>Ore didattica frontale</b>	40
<b>Ore di laboratorio</b>	20
<b>Ore di studio individuale</b>	90
<b>Ore di ricevimento previste</b>	18
<b>Sintesi contenuti</b>	<p>The course belongs to the class “caratterizzanti” of the Study Course, within the group of “Produzioni vegetali”.</p> <p>Objective of the course is to allow students to get good knowledge of the general scientific subjects of the course and to allow them to develop professional skills in the area of fruit production. The course aims to develop student’s scientific and technical knowledge that is needed for a critical approach to problems related to fruit production. Student will gain knowledge on different aspects related to the quality, sustainability and management of the fruit</p>

	production processes.
<b>Argomenti dell'insegnamento</b>	<p>For the following fruit species, a monographic approach is followed, with information related to botanical aspects, economic relevance at national and international level, environmental conditions for a sustainable cultivation, cultivation technique and cultivars/rootstocks.</p> <ul style="list-style-type: none"> <li>• Pomaceous fruit species (apple, pear)</li> <li>• Stone fruit species (peach, cherry, plum, apricot)</li> <li>• Strawberry and other small fruit species (blueberry, raspberry, etc.)</li> <li>• Kiwifruit</li> <li>• Temperate nut trees (Chestnut, hazelnut, walnut, almond)</li> <li>• Citrus species</li> <li>• Olive</li> <li>• Table grape</li> <li>• Selected tropical fruit crops</li> </ul>
<b>Parole chiave</b>	fruit crops, genetic resources, cultivars, crop ecology, orchard management
<b>Prerequisiti</b>	
<b>Insegnamenti propedeutici</b>	no
<b>Modalità di insegnamento</b>	Frontal lectures and exercises
<b>Obbligo di frequenza</b>	no
<b>Obiettivi formativi specifici e risultati di apprendimento attesi</b>	<p>Knowledge and understanding</p> <ul style="list-style-type: none"> <li>• Knowledge of the most important scientific and technical traits of the main fruit tree species</li> </ul> <p>Applying knowledge and understanding</p> <ul style="list-style-type: none"> <li>• Be able to distinguish the main characters and cultural constraints of fruit tree cultivations</li> <li>• Be able to identify the most relevant limiting factors (deriving from the environment or related to the cultivation technique) for a sustainable fruit cultivation</li> </ul> <p>Making judgments</p> <ul style="list-style-type: none"> <li>• Through the critical evaluation of the environmental parameters</li> <li>• Through the critical evaluation of the several available agronomic approaches</li> </ul> <p>Communication skills</p> <ul style="list-style-type: none"> <li>• Ability to communicate the acquired knowledge by using a correct scientific and technical language</li> </ul>

	<p>Learning skills</p> <ul style="list-style-type: none"> <li>Ability to autonomously extend the knowledge acquired during the study course by reading and understanding scientific and technical documentation.</li> </ul>
<b>Obiettivi formativi specifici e risultati di apprendimento attesi (ulteriori info.)</b>	
<b>Modalità di esame</b>	<p>Oral exam.</p> <p>The evaluation will be conducted with questions aimed to verify student's knowledge and comprehension of the course topics. Questions will be asked with the aim to evaluate the student's capacity to apply his knowledge to solve specific case studies given by the teacher on subjects related to the fruit cultivation. The making judgment capacity of the student will be evaluated also by asking his critical opinion on the different subjects discussed during the exercises.</p>
<b>Criteri di valutazione</b>	<p>The final mark will reflect the quality of the student's answers to the questions. Particularly important will be the capacity showed by the student to fully manage the acquired knowledge, also by showing the ability to make connections between different thematic areas. The ability to develop a personal critical view on specific scientific problems will be also positively considered</p>
<b>Bibliografia obbligatoria</b>	<p>Lesson notes and didactic materials (papers) loaded on Teams</p>
<b>Bibliografia facoltativa</b>	<p>Suggested text books:</p> <p>- "Arboricoltura speciale", 2022. Edited by Gentile, Inglese, Tagliavini, Edagricole (Bologna)</p> <p>- "Principles of Modern Fruit Science", 2019. Edited by Sansavini, S., Costa, G., Gucci, R., Inglese, P., Ramina, A., Xiloyannis, C., and Desjardins, Y., Leuven, Belgium: ISHS), pp.421. ISBN 978-94-6261-204-4</p> <p>- "Fundamentals of temperate zone tree fruit production", 2005, Edited by Tromp, Webster and Wertheim, Backhuys Publishers.</p>
