

Syllabus

Descrizione corso

Titolo insegnamento	Business Analytics (curr. LP)
Codice insegnamento	25459
Titolo aggiuntivo	
Settore Scientifico-	SECS-P/07
Disciplinare	
Lingua	Inglese
Corso di Studio	Corso di laurea magistrale in Accounting e Finanza
Altri Corsi di Studio (mutuati)	
Docenti	prof. Nicola Dalla Via,
	Nicola.DallaVia@unibz.it
	https://www.unibz.it/en/faculties/economics-
	management/academic-staff/person/41428
Assistente	
Semestre	Primo semestre
Anno/i di corso	2
CFU	6
Ore didattica frontale	36
Ore di laboratorio	-
Ore di studio individuale	-
Ore di ricevimento previste	18
Sintesi contenuti	The course provides an advanced perspective on managerial accounting, focusing on how financial and non-financial information supports decision-making, control, and performance management. The course explores costing techniques, budgeting and variance analysis, transfer pricing, and performance measurement across different organizational contexts. Analytical tools such as predictive modeling, simulations, and ERP/BI applications are introduced as complements to accounting concepts, enabling students to address complex managerial challenges with greater insight.

Argomenti dell'insegnamento	This course integrates advanced managerial accounting topics with foundational elements of business analytics and performance measurement. It focuses on preparing, evaluating, and interpreting financial and non-financial information to support managerial decision-making and control across different types of organizations (e.g., manufacturing, service, for-profit, and non-profit). Topics covered include advanced cost allocation techniques (such as Time-Driven Activity-Based Costing), variance analysis, fundamentals of predictive analytics, Monte Carlo simulations and uncertainty, interactive data visualizations for managerial decision-making, and the recording of basic transactions in an Enterprise Resource Planning (ERP) system.
Parole chiave	Managerial accounting, performance measurement, costing techniques, managerial decision-making
Prerequisiti	
Insegnamenti propedeutici	
Modalità di insegnamento	The course combines frontal lectures, problem-solving exercises, and case study discussions. In-class explanations will be integrated with the application of concepts through practical exercises and managerial cases. Active participation is expected and encouraged throughout the course.
Obbligo di frequenza	Although course attendance is not compulsory, it is highly recommended
Obiettivi formativi specifici e risultati di apprendimento attesi	
Obiettivi formativi specifici e risultati di apprendimento attesi (ulteriori info.)	 Upon successful completion of this course, students will be able to: Apply advanced managerial accounting and business analytics techniques to support decision-making and control in diverse organizational contexts. Interpret and integrate financial and non-financial information to drive corporate performance and evaluate strategic outcomes. Utilize appropriate analytical frameworks and data analysis methods to investigate and solve complex managerial problems. Demonstrate effective problem-solving, computational, and communication skills through the preparation of managerial reports that support performance management.

Knowledge and understanding:

- Advanced knowledge and understanding of managerial dilemma's related to the measurement and management of performance in different types of organizations
- Understand how companies generate, manage, and analyse internal financial and non-financial information using ERP and BI systems

Applying knowledge and understanding:

- Ability to apply advanced management accounting concepts and techniques in several business settings
- Ability to integrate financial information with non-financial information to effectively support managerial decision-making and drive/control corporate performance
- Ability to apply data analysis tools and techniques to extract financial data, analyse financial statements and internal reports, and visualize complex accounting data

Making judgments:

- Ability to search for, evaluate and suggest appropriate analytical frameworks to diagnose and solve multifaceted managerial problems
- Ability to analyse complex business settings and apply appropriate problem solving, computational and communication skills
- Preparation and analysis of managerial reports that aid in measuring/driving corporate performance and evaluating managerial performance

Learning skills:

- Ability to prepare a managerial report to communicate the results of a data analysis
- Provide relevant information for decision-making, as well as solutions in response to specific issues related to the measurement and management of corporate and managerial performance

Modalità di esame

For students who actively engage in course activities, the final grade is based on a combination of:

- Optional Midterm
- Assignments

	Final Exam, consisting of multiple-choice and essay questions
	These assessment components are designed to evaluate both the understanding of individual topics and the ability to integrate concepts across the course. The midterm, assignments, and final exam collectively assess students' knowledge acquisition, comprehension, and application of managerial and financial accounting principles to support managerial decision-making.
Criteri di valutazione	Non-attending students: • Final Exam (combination of multiple-choice and essay questions): 100% of the final grade
	Attending students (who actively engage in course activities): Optional Midterm Assignments Final Exam (combination of multiple-choice and essay questions)
	To pass the course, students must achieve a passing grade in the Final Exam, regardless of performance in the midterm or assignments. Grades earned in the Optional Midterm and Assignments are valid for one academic year.
Bibliografia obbligatoria	The detailed list of required readings and learning materials will be announced at the beginning of the course and made available on the OLE platform.
Bibliografia facoltativa
