## Course Description

Course Title	Project Product Design 2.d
Course Code	97167
Course Title Additional	
Scientific-Disciplinary Sector	NN
Language	Italian; English; German
Degree Course	Bachelor in Design and Art - Major in Design
Other Degree Courses (Loaned)	
Lecturers	Dr. Camilo Ayala Garcia, Camilo.AyalaGarcia@unibz.it https://www.unibz.it/en/faculties/design-art/academic- staff/person/47021
Teaching Assistant	
Semester	Second semester
Course Year/s	2nd - 3rd
СР	19
Teaching Hours	90+60+30
Lab Hours	0
Individual Study Hours	295
Planned Office Hours	93
Contents Summary	The course provides students with knowledge and skills in the operational aspects approaches of designwork, methods and theories of product design for various functional and experimental fields of application with a focus on digital production processes.
Course Topics	
Keywords	
Recommended Prerequisites	To have passed the Project Product Design 1; to have certified the language level proficiency B1 in the course language in years following the first.
Propaedeutic Courses	

Teaching Format	
Mandatory Attendance	not compulsoy but recommended
Specific Educational	Knowledge and understanding
Objectives and Learning Outcomes	have acquired their own project methodology in the field of product design, from the phase of planning to the phase of realisation of the project.  have acquired the basic practical and theoretical knowledge necessary to realise a project in the field of product design.  have acquired the basic knowledge to be able to turn a critical eye to their own work and to deal with contemporary complexity.  have acquired the basic knowledge necessary for further Master's studies in all components of project culture as well as in theoretical subjects.
	Applying knowledge and understanding plan, develop and realise a project in the field of product design. be able to finalize the creation of an accomplished project in the field of product design, thanks to the basic knowledge acquired in the practical, scientific and theoretical fields. recognise the main phenomena of contemporary society, to observe them critically, also from an ethical and social point of view, and to elaborate appropriate solutions at the level of a design proposal/response. make use of the skills acquired during the course of study in the event of continuing studies in a Master's degree programme in the field of product design and to develop them further.
	Making judgements be able to make independent judgements for the purpose of developing their own design skills and in relation to all those decisions that are necessary to bring a project to completion. be able to make independent judgements, both in the critical evaluation of their own work and in their ability to use the right interpretative tools in those design contexts in which they will work and/or continue their studies, also considering ethical and social aspects.
	Communication skills present an independently realised project in the field of product

	1
	design in the form of an installation, orally as well as in writing in a professional manner.
	to professionally communicate and substantiate one's own
	decisions and justify them from a formal and theoretical point of
	view.
	communicate and present your own project at a professional level
	in another language and correctly in a third language in addition to
	their own language
	Learning skills
	have learned a work methodology at a professional level - in the
	sense of being able to identify, develop and realise solutions to
	complex problems by applying the knowledge acquired in the
	practical and theoretical fields - in order to start a professional
	activity and/or continue their studies with a master's degree
	program.
	have developed a creative attitude and learned how to enhance it
	and develop it according to their own inclinations.
	have acquired basic knowledge in theoretical and practical subjects
	as well as a study methodology suitable for continuing studies with
	a master's degree program.
Specific Educational	
Objectives and Learning	
Outcomes (additional info.)	
Assessment	
Evaluation Criteria	
Required Readings	
Supplementary Readings	
Further Information	
Sustainable Development	Quality education
Goals (SDGs)	

#### Course Module

Course Constituent Title	Product Design
Course Code	97167A
Scientific-Disciplinary Sector	ICAR/13
Language	German

Lecturers	
Teaching Assistant	
Semester	Second semester
СР	8
Responsible Lecturer	
Teaching Hours	90
Lab Hours	0
Individual Study Hours	110
Planned Office Hours	60
Contents Summary	The course should provide fundamentals, skills, working methods, theories and practices of Product Design in diverse functional and experimental scopes.
Course Topics	
Teaching Format	
Required Readings	
Supplementary Readings	

### Course Module

Course Constituent Title	Digital fabrication
Course Code	97167B
Scientific-Disciplinary Sector	ICAR/13
Language	Italian
Lecturers	Dr. Camilo Ayala Garcia, Camilo.AyalaGarcia@unibz.it
	https://www.unibz.it/en/faculties/design-art/academic- staff/person/47021
Teaching Assistant	
Semester	Second semester
СР	6
Responsible Lecturer	
Teaching Hours	60
Lab Hours	0
Individual Study Hours	90

Planned Office Hours	18
Contents Summary	The course should address the emerging world of digital fabrication from CAD to CAM and its impact on today's craft and mass production systems.
Course Topics	
Teaching Format	
Required Readings	
Supplementary Readings	

#### Course Module

Course Code Theo  Course Code 9716	ories and languages of product design
Course Code 9716	:7C
	7C
Scientific-Disciplinary Sector M-FI	L/05
<b>Language</b> Engli	ish
Lecturers	
Teaching Assistant	
Semester Seco	nd semester
<b>CP</b> 5	
Responsible Lecturer	
Teaching Hours 30	
Lab Hours 0	
Individual Study Hours 95	
Planned Office Hours 15	
and show contribution of the contribution of t	contents of the integrated theoretical module refer to the role status of products in our material culture and, in particular, products take part in networks of meanings: how they ribute to producing meanings, through their configuration in by shapes, colours, textures and consistencies, and how they given meanings in the course of the everyday practices in in they take part. The module refers to research areas such as uct semiotics, design semiotics, object semiotics, product uage, product semantics.
