## *Kursbeschreibung*

<b>Titel der Lehrveranstaltung</b>	Entwicklungs- und Pädagogische Psychologie 1 - Grundlagen
<b>Code der Lehrveranstaltung</b>	11445
<b>Zusätzlicher Titel der Lehrveranstaltung</b>	
<b>Wissenschaftlich-disziplinärer Bereich</b>	PSIC-02/A
<b>Sprache</b>	Italienisch
<b>Studiengang</b>	Einstufiger Master in Bildungswissenschaften für den Primarbereich - Abteilung in italienischer Sprache
<b>Andere Studiengänge (gem. Lehrveranstaltung)</b>	LM-85 bis Education Ladin section
<b>Dozenten/Dozentinnen</b>	Prof. Livia Taverna, Livia.Taverna@unibz.it <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/4202">https://www.unibz.it/en/faculties/education/academic-staff/person/4202</a> dr. Francesca Sangiuliano Intra, Francesca.SangiulianoIntra@unibz.it <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/40459">https://www.unibz.it/en/faculties/education/academic-staff/person/40459</a> Dr. Francesco Rovatti, FrRovatti@unibz.it <a href="https://www.unibz.it/en/faculties/education/academic-staff/person/31734">https://www.unibz.it/en/faculties/education/academic-staff/person/31734</a>
<b>Wissensch. Mitarbeiter/Mitarbeiterin</b>	
<b>Semester</b>	Zweites Semester
<b>Studienjahr/e</b>	1.
<b>KP</b>	8
<b>Vorlesungsstunden</b>	60
<b>Laboratoriumsstunden</b>	40
<b>Stunden für individuelles</b>	100

<b>Studium</b>	
<b>Vorgesehene Sprechzeiten</b>	24
<b>Inhaltsangabe</b>	<p>The module aims to provide students with the fundamental scientific knowledge</p> <ul style="list-style-type: none"> <li>-of the developmental psychology of children in early childhood, particularly from 0 to 7 years;</li> <li>- of the psychology of education and learning that guides the processes of teaching and learning, motivation and talent development, and the structuring of the learning environment, with a focus on integration processes and environments that foster inclusion in both typical and atypical developmental situations.</li> </ul> <p>The above-mentioned contents are preparatory to the knowledge that will be developed in the second-year module (M-9). Lectures and workshops will help to focus on methodologies for observing child behaviour and provide the tools to support inclusive teaching.</p>
<b>Themen der Lehrveranstaltung</b>	The course aims both to convey the basic knowledge of developmental psychology relating to early childhood, and to enable future teachers to acquire specific professional psycho-pedagogical skills.
<b>Stichwörter</b>	Developmental psychology, early childhood, cognitive development, language development, socio-emotional development.
<b>Empfohlene Voraussetzungen</b>	
<b>Propädeutische Lehrveranstaltungen</b>	
<b>Unterrichtsform</b>	Lecture with multimedia tools, debate and guided discussions, flipped classroom.
<b>Anwesenheitspflicht</b>	In accordance with the regulation
<b>Spezifische Bildungsziele und erwartete Lernergebnisse</b>	<p>Knowledge and understanding</p> <p>Students:</p> <ul style="list-style-type: none"> <li>- know the methodological, theoretical and conceptual foundations of Developmental Psychology, Educational and Learning Psychology with a focus on early childhood education and inclusion;</li> <li>- they know the phases of physical, cognitive, emotional and social development that characterise early childhood and the</li> </ul>

	<p>corresponding theories;</p> <ul style="list-style-type: none"> <li>- they know the forms and methods of systematic observation and documentation;</li> <li>- they know the difference between everyday observations, structured observations, observations in educational institutions and in scientific contexts;</li> <li>- they know the relevant theories of learning, motivation, cognition and memory in early childhood;</li> <li>- know the conditions and criteria for the establishment of learning-promoting environments;</li> <li>- they know the criteria for assessing the developmental progress of children in early childhood;</li> <li>- know the significance of developmental psychology and educational and learning psychology with regard to inclusion processes in early childhood.</li> </ul> <p>Ability to apply knowledge and understanding</p> <p>Students</p> <ul style="list-style-type: none"> <li>- can relate the disciplinary foundations of developmental psychology and educational and learning psychology to concrete situations and cases and can develop corresponding action strategies in the field of early childhood education and inclusion;</li> <li>- are able to use knowledge of developmental stages in early childhood for scientifically based educational action;</li> <li>- are in a position to systematically observe and document;</li> <li>- are able to support developmental progress and promote inclusive educational environments.</li> </ul> <p>Autonomy of judgement</p> <p>Students</p> <ul style="list-style-type: none"> <li>- are able to use the disciplinary foundations of Developmental Psychology and Educational and Learning Psychology to assess changes and progress in education during the early years;</li> <li>- can use observations and documentation to assess learning processes in children;</li> <li>- can assess the quality of the learning environment;</li> <li>- can weigh up the advantages and disadvantages of observation and documentation methods;</li> <li>- can expertly evaluate the role of motivation, cooperation, strategy development and feedback in the learning process.</li> </ul> <p>Communication skills</p>
--	---

	<p>Students</p> <ul style="list-style-type: none"> <li>- are able to use the fundamentals of developmental and educational psychology to communicate in teams and to conduct process- and outcome-oriented evaluations;</li> <li>- They are able to use psychological knowledge to establish a constructive dialogue with pupils' families;</li> <li>- can document and report the results of observations.</li> </ul> <p>Learning skills</p> <p>Students</p> <ul style="list-style-type: none"> <li>- are able to use learning theories and strategies for personal and professional development;</li> <li>- are able to use the disciplinary foundations for further education, and to incorporate them independently into other areas of research;</li> <li>- are able to employ learning strategies as an experienced and scientifically trained person knows how to do.</li> </ul>
<b>Spezifisches Bildungsziel und erwartete Lernergebnisse (zusätzliche Informationen)</b>	
<b>Art der Prüfung</b>	<p>There are ongoing assessments in both courses and workshops. Final written examination with multiple-choice and open-ended questions.</p>
<b>Bewertungskriterien</b>	<p>The exam is a single assessment, but partial evaluations are foreseen for the individual modules. In the event of a negative result for the overall course, any partial tests passed successfully will be considered as already completed during the next attempt at the full exam. It should be noted that, even in this case, a negative evaluation of the entire course will still count toward the total number of available attempts to pass the exam. According to the Examination Regulations, if a student fails an exam in three consecutive attempts, they are not allowed to register for the same exam in the three sessions following the last attempt (Art. 6, Paragraph 4 of the current Examination Regulations).</p> <p>The assessment will cover the topics addressed, the expected learning outcomes, and the specific educational objectives (Syllabus). The evaluation criteria are as follows: relevance of the answer to the question asked, clarity of exposition and</p>

	<p>argumentation with reference to the literature, ability to analyze and reflect critically based on the knowledge and content presented, use of scientific disciplinary terminology, and autonomy of judgment.</p>
<b>Pflichtliteratur</b>	<ul style="list-style-type: none"> <li>- Berti, Anna Emilia, Bombi, Anna Silvia (2013). Corso di Psicologia dello sviluppo. Bologna, Il Mulino (first and second part).</li> <li>- Ligorio Maria Beatrice, Cacciamani Stefano (2013). Psicologia dell'Educazione. Rome, Carocci.</li> <li>- Baumgartner, Emma (2017). L'osservazione del comportamento infantile. Teorie e strumenti. Nuova edizione.. Rome, Carocci.</li> </ul> <p>Additional bibliographic materials will be proposed during the course and will be available on the Teams platform dedicated to teaching.</p> <p>.</p>
<b>Weiterführende Literatur</b>	<ul style="list-style-type: none"> <li>- Farneti, Alessandra (1998). Elementi di psicologia dello sviluppo: dalla teoria ai problemi quotidiani. Rome: Carocci.</li> <li>- Cadamuro, Alessia &amp; Farneti, Alessandra (2008). Insegnanti e bambini: idee e strumenti per favorire la relazione. Rome: Carocci.</li> <li>- Woolfolk, Anita (2016). Psicologia dell'educazione. Teorie, metodi e strumenti Pearson.</li> <li>- Rollo, Dolores (2005). Breve dizionario di psicologia dello sviluppo e dell'educazione. Rome: Carocci.</li> </ul> <p>Additional recommended further reading will be indicated in the course of the lectures.</p>
