Course Description

Course Title	Project LAB - Startup
Course Code	25575
Course Title Additional	
Scientific-Disciplinary Sector	NN
Language	English
Degree Course	Master in Entrepreneurship and Innovation
Other Degree Courses (Loaned)	
Lecturers	<p>Prof. Dr. Christoph Stöckmann, Christoph.Stoeckmann@unibz.it https://www.unibz.it/en/faculties/economics-management/academic-staff/person/47446</p> <p>Dr. Thomas Maran, Thomas.Maran@unibz.it https://www.unibz.it/en/faculties/economics-management/academic-staff/person/44429</p>
Teaching Assistant	
Semester	All semesters
Course Year/s	2
CP	6
Teaching Hours	36
Lab Hours	6
Individual Study Hours	-
Planned Office Hours	18
Contents Summary	<p>This capstone course empowers students to transform early-stage business ideas into viable ventures. Combining problem-based learning with hands-on project work, it guides participants through key phases of the entrepreneurial process from identifying and validating opportunities to designing business models, pricing strategies, marketing plans, and financial projections. Students synthesize their insights into a compelling business plan or</p>

	<p>accelerator application with pitch deck. The course develops entrepreneurial competence and strategic thinking, preparing students to move confidently from academic study into real-world entrepreneurial action.</p>
Course Topics	<p>It is a capstone course for competence development, in which the knowledge and skills acquired in the various courses are pooled using problem solving based learning to analyse real situations and develop an action plan for starting a new venture including a business plan, the application for an accelerator program and/or a pitch deck for investors.</p> <p>List of topics covered:</p> <ul style="list-style-type: none"> • Opportunity Evaluation and Selection. Students learn to identify and assess market opportunities based on evidence, feasibility, and strategic fit. What distinguishes a promising idea from a passing trend? • Customer Validation and Pricing. Participants. engage in real-world testing to validate customer needs and define pricing strategies that reflect value perception. Have you listened closely enough to build what people truly need—and will pay for? • Marketing Plan. The module covers lean marketing approaches for early-stage ventures, focusing on positioning, messaging, and channel selection. Can your message cut through the noise—and reach the right audience? • Finance Plan. Students design a basic financial model to estimate costs, revenues, and key performance indicators. Do your numbers tell a story that investors will believe in? • Business Model. This unit explores business model design tools (e.g., Business Model Canvas) to define how ventures create, deliver, and capture value. Who benefits from your solution—and why now? • Business Plan. Students learn how to synthesize their concept into a coherent, compelling business plan aimed at partners or funding institutions. Can you turn your vision into a convincing narrative?

	<ul style="list-style-type: none"> • Applying for an investment or to an Accelerator Programme. Participants gain insight into investment/application processes and how to communicate traction, potential, and team strength effectively. What makes your venture stand out from the crowd?
Keywords	<ul style="list-style-type: none"> • Opportunity Evaluation and Selection • Customer Validation and Pricing • Business Model
