	management/academic-staff/person/48024
Wissensch.	
Mitarbeiter/Mitarbeiterin	
Semester	Alle Semester
Studienjahr/e	2
KP	12
Vorlesungsstunden	72 (36 M-1 + 36 M-2)
Laboratoriumsstunden	-
Stunden für individuelles	-
Studium	
Vorgesehene Sprechzeiten	36 (18 M-1 + 18 M-2)
Inhaltsangabe	M-1
	The course Aaims to equip learners with the knowledge and tools
	necessary to understand the fundamental techniques of revenue
	management, such as the Littlewood rule and its extensions to
	multiple fare classes, and to comprehensively assess customer
	profitability in the tourism industry.

	M-2 The course is designed to provide both theoretical and practical knowledge of key corporate finance topics—including financial structure, debt and equity securities, and investment analysis—as well as themes related to financial intermediation, such as the financial system, intermediaries, markets, interest rates, and other essential financial indicators.
Themen der Lehrveranstaltung	Topics covered in M1 include:  - From product to customer-centric business models  - Revenue management in the Hospitality, Tourism and Destination Enterprises  - The new customers' metrics  - Assessing the customer' value  - The rising impact of Artificial Intelligence on modeling customer data in the Hospitality, Tourism and Destination Enterprises.
	Topics covered in Module 2 include two main areas.  Corporate Finance  Raising Debt Raising Equity Capital Dividends and other forms of payments Investment valuation Financial system Financial intermediaries and Financial Markets Debt and Equity instruments Capital markets Interest rates and financial investments
Stichwörter	Revenue Management, Customer value, Financing decisions, Financial system, Capital budgeting
Empfohlene Voraussetzungen	
Propädeutische Lehrveranstaltungen	
Unterrichtsform	In-person (module 1) and on-line teaching (module 2)
Anwesenheitspflicht	-
Spezifische Bildungsziele und erwartete	Knowledge and understanding The student acquires specific competences and skills to deal with

#### Lernergebnisse

management issues from the perspective of the management of tourism enterprises, the development and promotion of tourism destinations and the planning and management of integrated tourism systems and individual services in strategic, organisational and administrative terms with an international and intercultural perspective.

Ability to apply knowledge and understanding

The student/undergraduate acquires the ability to understand and analyse the problems characterising the tourism sector through the application of theories and models and the adoption of appropriate tools for the management of tourism enterprises.

The student/undergraduate acquires the ability to use models for the analysis of the tourism market.

The student/undergraduate acquires mastery in the management of human resources and in attributing the right value to the enterprise culture.

The student also acquires skills in accounting and project financing for business development.

#### Autonomy of judgement

Acquire the ability to select data and use appropriate information to describe a problem concerning the management of tourism businesses as well as tourism associations and destinations

#### Communication skills

The Master's degree graduate will be able to communicate effectively in oral and written form the specialised content of the individual disciplines, using different registers depending on the recipients and the communicative and didactic purposes, and to evaluate the formative effects of his/her communication. Written and oral communication skills are particularly developed in the training activities carried out for the preparation of the Master's thesis, in the discussion of business cases and in interactive lectures involving group discussions and the comparison of individual analyses.

#### Learning skills

to identify thematic connections and to establish relationships between different cases and contexts of analysis

	to frame a new problem systematically and generate appropriate
	taxonomies.
	to develop general models from the phenomena studied.
Spezifisches Bildungsziel	
und erwartete	
Lernergebnisse (zusätzliche	
Informationen)	
Art der Prüfung	Module 1
	For attending students:
	Presentation of business cases in small groups (weight 40%)
	Written Final Exam (combination of multiple choice questions
	and exercises, weight 60%)
	Note: The grade obtained in the presentation of the business case
	is valid for 1 academic year and cannot be carried over beyond
	that time-frame.
	For non-attending students: Written Final Exam (combination of
	multiple choice questions and exercises, weight 100%)
	Module 2
	Written Final Exam (weight 100%). Individual written test that
	consists of both financial theory questions and practical exercises.
	Treatment of attending and non-attending students for assessment
	is alike.
	Final Grade
	The final grade of the course is the average of the grade obtained
	in Module 1 (50%) and the one obtained in Module 2 (50%).
	Students must pass the Final Exam of both modules to have a
	passing grade in the course.
Bewertungskriterien	The assessments are intended to assess how well students
	understood the material covered throughout the course and the
	links among the various topics.
	In the business cases, students must prove their ability to search
	for relevant economic information that apply to specific business
	problems and provide managerial recommendations to address
	them. Class presentations allow the discussion of the solutions
	suggested in an interactive way.

	In the final written exam, students must demonstrate their understanding of the concepts and use of proper technical language: clarity in exam execution and quality of the written output are essential.
Pflichtliteratur	The detailed list of required course readings and learning material is announced by the beginning of the course.
