

Syllabus

Descrizione corso

Titolo insegnamento	Tourism Management Club
Codice insegnamento	30151
Titolo aggiuntivo	
Settore Scientifico- Disciplinare	SECS-P/08
Lingua	Tedesco
Corso di Studio	Corso di laurea in Management del Turismo, dello Sport e degli Eventi
Altri Corsi di Studio (mutuati)	
Docenti	prof. dr. Oswin Maurer, oswin.maurer@unibz.it https://www.unibz.it/en/faculties/economics- management/academic-staff/person/973
Assistente	
Semestre	Secondo semestre
Anno/i di corso	not defined
CFU	6
Ore didattica frontale	36
Ore di laboratorio	-
Ore di studio individuale	-
Ore di ricevimento previste	18
Sintesi contenuti	-
Argomenti dell'insegnamento	Three contemporary tourism, travel, experience and event topics form the basis for TMC. The choice of topics depends on actual and important areas of development in these industries and which are of interest to institutions and businesses, and allow for educational progress, skills and competence development of students. Topics are covered by a combined format of life or virtual presentations, life or virtual moderations, and life or virtual

	<u> </u>
	discussions, with pre-event research and follow-up evaluations,
	reporting and publishing requirements in each individual event.
	Main topics include:
	- data collection and preparation on industry background, firm
	performance, institutional setting, competitive situation, regional
	relevance;
	- collection and evaluation of papers, industry publications,
	consulting reports and popular media on topics covered in TMC
	- presentation and moderation training
	- training for writing press releases targeting daily and weekly
	regional newspapers
	- collection, management and upgrading of customer
	(participants) databases
	- report writing, editing and distribution to stakeholders
	- design of PR-materials, photographs, background information
	and presentation materials for each TMC event
	- preparation and execution of post-event activities (catering,
	press releases, controlling, follow-up communication with
	presenters and sponsors)
Parole chiave	o Event management and organisation
	o Stakeholder activities
	o Presentation skills
	o Report writing
	o Applied activity
Prerequisiti	German language proficiency B1 (min)
Insegnamenti propedeutici	
Modalità di insegnamento	The course builds on three different, but complementing teaching
	and learning formats:
	- Seminar, providing students with a systematic view on current
	issues related to the topics to be selected for the actual TMC
	series, including data collection and evaluation, and
	communication/presentation training, as well as on business and
	institutional contexts
	- Event execution (of three individual events which are group
	managed and where each student must perform in different roles
	in each event (hosting, presenting, catering, reporting, etc.)
	- Reporting, applying and documenting skills acquired, and
	lessons learned during TMC.
Obbligo di frequenza	-

Obiettivi formativi specifici e	Making judgements
risultati di apprendimento	Identify the most important variables to use when making
attesi	decisions in complex situations;
	report analytically and critically on information, experience and
	data to make appropriate business decisions;
	find solutions by using logical reasoning and combining information
	and analytical tools
	Communication skills
	Graduates of the Bachelor's degree programme in Tourism, Sports
	and Event Management will develop communication and
	presentation skills in order to explain, argue and summarise the
	complex, interdisciplinary topics of the tourism, sports and event
	sector in a working environment.
	Achievement of this goal is assessed by means of written
	examinations, group work, assignments, presentations of case
	studies and projects as well as the final thesis.
	Learning skills
	the ability to seek out up-to-date information in order to keep
	abreast of changes in the service sector in general and in tourism,
	sports and event management in particular;
	the ability to analyse, critically appraise and integrate data,
	information and experience;
	the ability to develop possible solutions to problems in economic
	and operational areas relating to those work contexts that
	represent a possible career prospect for graduates.

risultati di apprendimento	
attesi (ulteriori info.)	
Modalità di esame	Three different modes are used to assess and value the
	contribution of students, each counting towards the final mark.
	• written report, counting for 50 per cent (50 of 100) towards
	the final mark
	peer assessment, counting for 15 per cent (15 of 100) of the
	final mark
	• final exam, counting for 35 per cent (35 of 100) of the final
	mark
	Theory: assessed through a written exam with review questions at

assessment Theory: assessed through a written exam with review questions at the end of the course (35%) Application: assessed through a written group project report (50%) and peer evaluation (15%) Relevant for assessment of theory: • feasibility of the proposed solution, clarity of answers, argumentative logic and context, ability to evaluate and answer in a concise and precise way, mastery of language (with respect to technical terms), critical analysis and discussion of the underlying theory and practice Relevant for assessment of application: completeness of information, proper documentation of materials, use of scientific literature to underpin argumentation, use of actual/current issues to support the argumentative logic, creativity, critical thinking, teamwork and team management, quality of technical summary and professional presentation of results Bibliografia obbligatoria Materials for each individual topic will be distributed before/during seminar sessions Current articles and cases will be provided during seminars Altre informazioni Obiettivi di Sviluppo Istruzione di qualità, Partnership per gli obiettivi, Utilizzo		<u> </u>
The final grade is the weighted average of the three parts of assessment Theory: assessed through a written exam with review questions at the end of the course (35%) Application: assessed through a written group project report (50%) and peer evaluation (15%) Relevant for assessment of theory: • feasibility of the proposed solution, clarity of answers, argumentative logic and context, ability to evaluate and answer in a concise and precise way, mastery of language (with respect to technical terms), critical analysis and discussion of the underlying theory and practice Relevant for assessment of application: completeness of information, proper documentation of materials, use of scientific literature to underpin argumentation, use of actual/current issues to support the argumentative logic, creativity, critical thinking, teamwork and team management, quality of technical summary and professional presentation of results Bibliografia obbligatoria Materials for each individual topic will be distributed before/during seminar sessions Current articles and cases will be provided during seminars Altre informazioni Diettivi di Sviluppo Istruzione di qualità, Partnership per gli obiettivi, Utilizzo		Application: assessed through a written group project report and
