

UNIVERSITY ACADEMIC CURRICULUM VITAE

Education

- 2011 - 2015 **University of Veterinary Medicine Hannover, Clinic for Cattle**
Dissertation "*Effects of an intravenous administration of lipopolysaccharides in early pregnant cows on corpus luteum function and uterine blood flow*". Attainment of doctoral degree (dr. med. vet.)
- 2009 - 2010 **University of Veterinary Medicine Hannover, Clinic for Cattle, and University of Bologna, Faculty of Veterinary Medicine**
Dissertation (tesi di laurea) with a scholarship from the University of Bologna "*Transrectal Doppler ultrasonography in cows with acute induced endometritis*".
- 2007 - 2008 **University of Veterinary Medicine Hannover**
Erasmus, including a 10-week internship at the cattle clinic
- 2003 - 2011 **University of Bologna, Faculty of Veterinary Medicine**
Veterinary Medicine degree

Professional experience

- 2014 - 2024 **University of Veterinary Medicine Hannover, Clinic for Cattle :**
« **Wissenschaftliche Mitarbeiterin** » (postdoc) in the herd animal medicine department
- 2011 - 2014 **University of Veterinary Medicine Hannover, Clinic for Cattle :**
« **Wissenschaftliche Hilfskraft** » (doctoral student)
- 2008 - 2010 **University of Bologna, Faculty of Veterinary Medicine, Department of Veterinary Sciences**
Intern student

Experience in academic teaching

University of Veterinary Medicine Hannover :

- « **Klinische Propädeutik** » (2015 to present) : clinical propaedeutics training on patients for the 5th and 6th. semester veterinary medicine undergraduate students
- « **Reproduktionsmedizin** » (2015 to present) : practical exercises in animal (bovine) reproductive medicine subjects, for 7th and 8th semester veterinary medicine students
- « **Klinische Ausbildung am Patienten** » (2015 to present) : clinical exercises with and on patients in the various fields of bovine medicine, in particular: imaging (ultrasonography) in cattle and herd health. For 9th and 10th semester veterinary medicine students

Memberships

- Member of « **Tierärztekammer Niedersachsen** » since 2011
- Member of « **Società Italiana di Buiatria** » since 2023

List of publications

Einfluss einer wiederholten Applikation eines Gonadotropin-Releasing-Hormon-Analogons auf die Fruchtbarkeit azyklischer Milchkühe

Debertolis L, Bläsing H, Gundling N, Hoedemaker M (2024).

Klauentierpraxis 32, 49-55

Entwicklung und Evaluierung eines Simulators für das Training der ultraschallgestützten transrektalen gynäkologischen Untersuchung des Rindes.

Brombacher-Steiert, S., Gundelach, Y., Heppelmann, M., Debertolis, L., Tipold, A., & Wissing, S. (2021).

Berliner und Münchener Tierärztliche Wochenschrift, 134.

Effects of intravenous infusion of E. coli lipopolysaccharide in early pregnant cows.

*Herzog, K., Debertolis, L., Kastelic, J. P., Schmicke, M., Ulbrich, S. E., & Bollwein, H. (2019).
Reproduction, 157(1), 65-76.*

Effects of induced endometritis on uterine blood flow in cows as evaluated by transrectal Doppler sonography.

*Debertolis L, Mari G, Merlo B, Merbach S, Schoon H-A, Iacono E & Bollwein H (2016).
Journal of Veterinary Science 17, 189-197.*

Effects of intravenous administration of lipopolysaccharide on uterine blood flow in early pregnant dairy cattle.

*Debertolis L, Herzog K, Hoedemaker M, Bollwein H (2015).
Reproduction in Domestic Animals 50 (1), 64-64.*

Intravenous administration of lipopolysaccharides transiently suppresses corpus luteum function but does not cause embryonic mortality in early pregnant cows.

*Debertolis L, Herzog K, Piechotta M, Ulbrich S, Bollwein H (2014).
Reproduction in Domestic Animals 49 (1), 24-24.*
